6. 2019 Lake Monitoring
  - Main focus of todays meeting is deciding what to do for the 2019 season. Money must be used for water quality monitoring only. The options would be (A) (A) Druce/Gages/Third area (B) New set of lakes focusing on different type (manmade): Big Bear. Little Bear, Charles (C) Other projects/Equipment HOB0
    - Committee decided probably not needed to go back to Third/Druce/Gages – however further investigations on these can be done outside of DRWW.
    - Committee decided to create a inlet/outlet monitoring proposal for Big Bear/Little Bear/Charles
    - Project might also include equipment cost for new HOB0s
  - Education focus – should continue to do as group but money can't come from DRWW.
  - Options:
    - One -page educational flyer – Summary inlet/outlet ideas for DRWW
      - Benefit from BMPs in watershed
      - Sharon mentioned SMC has some flyers to use
      - Self-guided BMP tour in the DRWW watershed
