

DRWW Annual General Membership Meeting Agenda

08/20/2026 01:30 pm – 03:30 pm

**Lake County Central Permit Facility at 500 W. Winchester Road Libertyville, IL 60048
Second Floor Conference Room**

Discussion and Possible Approval of the Following:

1. Introductions and Announcements
 - a. Roll Call
2. Public Comment
3. ****Approval of 02/19/26 General Membership Meeting Minutes**
4. DRWW Business
 - a. DRWW Financials
 - i. ****Ratify DRWW Revenue & Expenditures**
 - ii. FY2026 DRWW Budget Review
 - b. Committee Updates
 - i. Executive Board
 - ii. Monitoring/Water Quality Improvements Committee
 - iii. Lakes Committee
 - c. Old Business
 - d. New Business
 - i. *DRWW Monitoring Location Analysis Web Tool*
Michelle Payne, Lake County Stormwater Management
5. Guest Speakers
 - a. *Lake County Public Works eBNR Challenges*
Austin McFarlane, Director, Lake County Public Works (LCPW)
 - b. *Mill Creek Water Quality Enhancement Project*
Dave Kraft, Principal Civil Engineer, Hey and Associates, Inc.
6. Watershed Updates & Announcements
7. Member Remarks
8. Next General Membership Meeting: February 18, 2027 at 1:30 p.m., Location TBD
9. Adjournment

DRWW Annual General Membership Meeting Agenda

02/19/2026 01:30 pm – 03:30 pm

Lake County Public Works Conference Room at 648 W. Winchester Road Libertyville, IL 60048

Discussion and Possible Approval of the Following:

1. Introductions and Announcements

Paul Kendzior, DRWW President, called the meeting to order at 1:40pm and started introductions.

a. Roll Call

Anna Niedzinski, DRWW coordinator, performed roll call. 20 members were in attendance representing 27 DRWW members: **Paul Kendzior**, DRWW President, Village of Libertyville; **Michael Burke**, Christopher Burke Engineering and representing Village of Deer Park; **Brian Joyce**, City of Lake Forest; **Don Wilson**, EPS, Inc.; **Mike Warner**, Gewalt Hamilton Associates and representing Fremont and Ela Townships and the Villages of Long Grove and Riverwoods; **Dave Kraft**, Hey & Associates; **John Patterson**, Integrated Lakes Management; **Paul Lindemann**, Lake County Division of Transportation (LCDOT); **Gary Glowacki**, Lake County Forest Preserve District (LCFPD); **Marc Bourgault**, Lake County Public Works; **Anna Niedzinski**, Lake County Stormwater Management Commission (SMC); **Chuck Bodden**, North Shore Water Reclamation District (NSWRD); **Chris Johnson**, Sierra Club; **Alyssa Palazzolo** representing Vernon Township and Village of Lake Zurich; **Andrea Larson**, Village of Buffalo Grove; **Heather Galan**, Village of Gurnee; **Michael Talbett**, Village of Kildeer; **Wally Dittrich**, Village of Lincolnshire; and **Rafal Palka**, Village of Lindenhurst. A general membership quorum was present via a roll call vote.

2. Public Comment

There was no public comment.

3. **Approval of 08/21/25 General Membership Meeting Minutes

Motion to approve minutes as presented by Chuck Bodden, NSWRD, seconded by Brian Joyce, City of Lake Forest. The motion passed with a unanimous consensus vote.

4. DRWW Business

a. DRWW Financials

i. Ratify DRWW Revenue & Expenditures

There were no DRWW revenues nor expenditures to ratify.

ii. FY2026 DRWW Budget Review

Niedzinski presented the FY2026 DRWW that was approved by the Executive Board at the November 20, 2025 Executive Board meeting. There were no questions on this agenda item.

iii. **Approval of FY2026 DRWW Memberships Dues

Motion to approve the FY2026 DRWW Membership dues as presented by Mike Warner, Gewalt Hamilton Associates, seconded by Brian Kuebker, Village of Libertyville. Motion passed 26-0-1 via roll call vote.

b. Committee Updates

i. Executive Board

Paul Kendzior, DRWW President, provided the general membership an update on Executive Board activities. The main highlight is the implementation of the DRWW Scorecard. The Scorecard looks at the status of goals that the DRWW has outlined in the Workplan.

ii. Monitoring/Water Quality Improvements Committee

**** = DRWW Action Item**

Steve Waters, NSWRD, Monitoring Committee Chair, provided the general membership an update on Monitoring Committee activities. Monitoring of the Des Plaines River continues to occur while the NARP Implementation Plan is being discussed. The Committee has reached out to the United States Geological Survey (USGS) to discuss putting in a Next Generation Water Quality Monitoring System.

iii. Lakes Committee

James Fitzgerald, representative for the Lakes Committee Chair, provided the general membership an update on Lakes Committee activities. The committee welcomed Dave Kraft, Hey & Associates, as their newest member. The Committee reviewed the results of the 2025 DRWW Leaf Disposal Survey. The Committee also is assembling outreach resources for members to use.

c. Old Business

i. DRWW Leaf Disposal Survey

The leaf disposal survey closed end of September 2025 and a summary of the results have been put in the DRWW Annual Accomplishments newsletter.

d. New Business

i. Illinois Nutrient Loss Reduction Strategy: Point Source Update

Chuck Bodden, North Shore Water Reclamation District & DRWW Executive Board

Chuck Bodden, NSWRD, provided the general membership with an update on the Illinois Nutrient Loss Reduction Strategy. The Illinois Nutrient Loss Reduction focuses on the reduction of phosphorus entering waterways through regulating point sources. Overall, there has been a discharge reduction of 46% statewide, and a 77% reduction in the Des Plaines watershed. The reduction through point sources has surpassed the 2035 goal in 2025.

Questions:

1. Do you have a cost per pound for the removal of phosphorus? Not on hand, but it would be interesting to look at.
2. Do these reductions bring the waterway into compliance? No, agriculture is a primary source of phosphorus in Illinois. It will take all three sectors (point source, urban, and agriculture) to make reductions to bring waterways into compliance.
3. What sector does construction fall under? Construction falls under the urban sector and municipalities are responsible for regulating construction.
4. Are the point sources private or publicly owned? The point sources addressed are publicly owned treatment works (POTWs)

5. Guest Speakers

a. Lake County Division of Transportation Brine Facility Updates

Paul Lindemann, Maintenance Manager, Lake County Division of Transportation (LCDOT)

Paul Lindemann, Lake County DOT, presented to the general membership Lake County's history of using brine and de-icing liquids, an overview of how brine and other de-icing liquids work, and provided an overview of recent updates to their brine facility.

Questions:

1. Is the brine available for private companies? No, LCDOT has partnerships with local communities who are interested in trying, provided that there is brine available.
2. How many governments use LCDOT brine? Libertyville uses some, several other communities who were interested in trying brine were able to test it out.
3. What is the protein used that is written on the tank? Beet Heet is the protein LCDOT uses.
4. Do you have to have a NPDES permit to apply brine? Brine application is covered by the MS4 permit,
5. Does brine do more or less damage to the pavement? Brine is a dissolved salt. It allows us to use less salt because it is dissolved with water and we do a 50/50 mix.

PDHs are self-reporting. If attendees want to apply DRWW meetings towards their professional license, keep the certificate, agenda, and minutes with sign-in sheets. Acceptance of these materials for credit is at the discretion of the licensing authority.

MS4 Program BMP fulfillment. If attendees want to apply DRWW meetings and education towards their MS4 Program BMP Measurable Goals, keep the certificate, agenda and minutes with sign-in sheets. Acceptance of these materials for MS4 program credit is at the discretion of the Illinois EPA.

b. Seavey Ditch and Lake Charles Restoration Project

Max Orlandi and Michael Burke, Christopher Burke Engineering, Ltd.

Max Orlandi and Michael Burke, Christopher Burke Engineering (CBBEL), presented to the general membership the Seavey Ditch and Lake Charles Restoration project that was completed in 2025. The project was located in the Des Plaines watershed in Vernon Hills. The project was to improve the water quality of Lake Charles by reducing sediment and slowing down stream velocities. CBBEL was hired to complete the project design, and Semper Fi was awarded the construction contract. The presentation covered project coordination of the three (3) separate phases, project issues concerning dewatering and spoil pile placement, and public outreach.

Questions:

1. What monitoring will be performed during? That information is not on hand, but CBBEL can reach out to Bluestem.
2. Why was there so much experimentation? Other parts of the project that had the contractors attention.
3. Was the contractor fined for the violations? The contractor was very reactive.
4. Why are the seeds planted in the riprap? The hope is that eventually the seeds would infiltrate the material.
5. What kind of seed mix was used? That information is not on hand, but there was a lot of riprap used due to the non-cohesive soils.
6. Did CBBEL work with an ecologist? CBBEL did not. This would be a good thing to pursue for future projects.
7. Who made the decision to select the seed? CBBEL has a botanist with the team that selected the seed.
8. Was there flood improvements? Some ancillary flood effects were resolved by removing the trees that were creating logjams and slowing down drainage in areas.
9. What was the construction cost? 2 million dollars.
10. What was the pre-development status of the area (before it was farmland)? Most likely wetland.
11. What percent of the project cost was riprap? We don't know, but we can share that information later.
12. Now that the project is completed are there any follow-up items on this project? Bluestem will take care of the maintenance and monitor how the plant life reestablishes.
13. What will happen to the other areas of Seavey Ditch that were not part of this project and Lake Charles? There are other projects listed in the Lake Charles Water Quality Feasibility Study that are still looking for project sponsors and funding.

6. Watershed Updates & Announcements

Anna Niedzinski, Lake County SMC, announced that SMC has several upcoming events. The Homeowner Association (HOA) Workshop and Vendor Fair will be on February 25, 2026 at the College of Lake County, this is a free event for HOA's and property owners. SMC will be hosting a MS4 Workshop in May, details to follow.

7. Member Remarks

There were no member remarks.

8. Next General Membership Meeting: August 20, 2026 at 1:30 p.m., Lake County Public Works Conference Room, 648 W Winchester Rd, Libertyville, Illinois 60048

9. Adjournment – 3:06pm

Heather Galan, Village of Gurnee, motioned to adjourn, seconded by Chuck Bodden, NSWRD. The motion passed with a unanimous consensus vote.

PDHs are self-reporting. If attendees want to apply DRWW meetings towards their professional license, keep the certificate, agenda, and minutes with sign-in sheets. Acceptance of these materials for credit is at the discretion of the licensing authority.

MS4 Program BMP fulfillment. If attendees want to apply DRWW meetings and education towards their MS4 Program BMP Measurable Goals, keep the certificate, agenda and minutes with sign-in sheets. Acceptance of these materials for MS4 program credit is at the discretion of the Illinois EPA.

DRWW February 19, 2026 Meeting Attendees

Name	Organization
Alyssa Palazzolo	Vernon Township; Village of Deerfield; and Village of Lake Zurich
Andrea Larson	Village of Buffalo Grove
Anna Niedzinski	Lake County Stormwater Management Commission
Ashley Strelcheck (Virtual)	Lake County Stormwater Management Commission
Brian Joyce	City of Lake Forest
Brian Kuebker	Village of Libertyville
Brian Valleskey	Baxter & Woodman
Chris Johnson	Sierra Club
Chuck Bodden	North Shore Water Reclamation District
Dave Kraft	Hey and Associates, Inc.
Don Wilson	EPS Inc.
Ernesto Huaracha (Virtual)	Lake County Stormwater Management Commission
Evan Craig	Self/MSG
Gary Glowacki	Lake County Forest Preserve District
Heather Galan	Village of Gurnee
Higinio Jasso	City of Waukegan
James Fitzgerald	Lake County Health Department
Joanna Colletti	GRAEF
John Paterson	Integrated Lakes Management
Marc Bourgault	Lake County Public Works
Marty Neal	Libertyville Township
Mary Handessman	Manitou Creek Drainage District
Max Orlandi	CBBEL
Michael Burke	CBBEL
Michael Talbett	Village of Kildeer
Michael Turner	Village of Lindenhurst
Michael Warner	Gewalt Hamilton Associates; and representing Antioch, Avon, Ela, and Fremont Townships and the Villages of Long Grove, Mundelein, Prospect Heights, Riverwoods, and Wadsworth
Nick Huber	Lake County Forest Preserve District
Paul Lindemann	Lake County & Lake County DOT (1 member)
Rafal Palka	Village of Lindenhurst
Rob Flood	North Shore Water Reclamation District
Steve Waters	North Shore Water Reclamation District
Stuart Lannoye	Lake County Public Works
Wally Dittrich	Village of Lincolnshire

SAVE THE DATES!

2026 Winter Best Practices Workshops

Registration Coming Soon at <https://SaltSmart.org/Workshops>

Hosted By:

Winter Best Practices for Public Roads

September 15 - Virtual

September 24 - In-Person,
Kane County DOT

September 29 - In-Person,
Lake County - Libertyville

October 6 - In-Person, DuPage
County DOT

October 13 - In-Person, Village
of Orland Park

October 27 - Virtual

November 12 - Virtual

The workshops feature innovative, local Salt Smart practices for public roads. The training was created with input from local public works and county DOT staff to provide an overview of current and next level practices to meet annual training needs.

Outreach Partners:

Salt Smart Certified Parking Lots & Sidewalks

October 20 - Virtual

October 29 - Refresher, Virtual

November 17 - Virtual

Salt Smart Certified workshops are geared towards both private contractors and public agencies with a local focus on industry-accepted best practices for parking lots and sidewalks.

The refresher workshop on October 29 is best for organizations whose staff have attended a Salt Smart Certified Parking Lots & Sidewalks workshop in the past.

Returning for 2026!

Calibration Events for Force America Equipment

November 3, 4, and 5

Reserve a 1-hour time slot to bring one plow truck and up to 5 staff members to learn how to calibrate your Force America spreading equipment. One time slot per organization.
